Title of the retreat:

The Gift of Human Life.

Synopsis of the retreat:

As we enter into the celebration of the Holy Time of Lent, let's take a look at the wisdom of the Catholic Church's moral tradition in its application to contemporary life. Recent advances in medical technologies have brought with them new means of curing diseases, allowing us to live longer and healthier lives. However; they can also be the source of heightened anxiety. Our Catholic faith offers both the long tradition of reflection and Church teaching to guide us through these multifaceted issues. We will explain and discuss the moral principles of Catholic teaching with regard to end-of-life decision-making.
